

ANUJ SHINDE

MANUAL TESTER | QA TESTER (FRESHER)

9850497485 | anujshinde000@gmail.com | [linkedin.com/in/anuj-shinde-b78378274](https://www.linkedin.com/in/anuj-shinde-b78378274) | anuj-shinde.netlify.app

PROFESSIONAL SUMMARY

Detail-oriented Computer Science Engineering student and aspiring Manual Tester with hands-on experience in STLC, SDLC, test case design, functional testing, regression testing, and defect/bug tracking. Skilled in writing and executing test cases, performing smoke and retesting cycles, validating application data using SQL, and reporting defects using Jira. Strong understanding of QA principles; eager to contribute to a fast-paced QA team as an entry-level Manual Test Engineer.

CORE COMPETENCIES (KEY SKILLS)

Manual Testing: STLC, SDLC, Requirement Analysis, Test Plan & Scenario Design, Test Case Design, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, Retesting, Integration Testing, UI/UX Testing, Cross-Browser Testing, Black-Box & White-Box Testing, Positive & Negative Test Case Execution, UAT Support, Defect/Bug Reporting & Tracking, Bug Life Cycle, Test Closure Reporting

Database / SQL: SQL, MySQL, MySQL Workbench, Database Testing, Data Validation, Query Writing

Tools: Jira (Basic), Postman (Basic - API Testing), MySQL Workbench, Browser DevTools, VS Code

Programming: Core Java (Basics), OOP Concepts

Methodologies: Agile/Scrum, Waterfall (Basic Exposure), SDLC/STLC Documentation, Requirement Traceability

Soft Skills: Analytical Thinking, Attention to Detail, Documentation, Team Collaboration, Time Management, Communication

PROJECTS

LearnEd – Online Learning Platform

Manual Tester

- Designed and executed test cases for Login, Registration, Course, and Mock Test modules, improving functional test coverage.
- Performed functional and form-validation testing along with navigation-flow testing for consistent user experience.
- Identified, logged, and tracked defects through to resolution, contributing to improved application stability.
- Verified backend data integrity by writing and executing SQL queries against the database.

Interview Assist – AI-Based Interview Preparation System

Manual Tester

- Conducted functional testing of Login and Question Practice modules to validate core application workflows.
- Performed input validation testing and verified error-handling messages to improve application reliability.
- Executed positive and negative test cases to validate expected and edge-case system behavior.
- Verified end-to-end application functionality, ensuring features met requirement specifications.

Tools & Technologies: Manual Testing, SQL, MySQL, Jira (Basic)

INTERNSHIP EXPERIENCE

Web Development Intern – TechnoHacks EduTech

Jan 2024 – Feb 2024

- Designed and implemented web-based applications, gaining hands-on experience across the full software development life cycle.
- Conducted functional testing and debugging across multiple project modules, enhancing early-stage QA processes and ensuring timely issue resolution.

EDUCATION

B.Tech – Computer Science & Engineering

2022 - 2026 | CGPA: 8.34

Fabtech Technical Campus, Sangola (DBATU University)

HSC – Shivratna Junior College, Gadegaon

2020 - 2022 | 78.50%

SSC – New English School, Gadegaon

2019 - 2020 | 88.60%

CERTIFICATIONS

- Software Testing Certification – Eduonix Learning Solutions
- SQL & Relational Database Management System – Great Learning

EXTRA-CURRICULAR ACTIVITIES & ACHIEVEMENTS

- Secretary – ACES (Association of Computer Engineering Students), 2024–25
- President - Nature Club, Jul 2024 - Jun 2025
- Organized Technofab 2K25, a State-Level Technical Event
